Terminology

4 Color Process: Most 4 color printing is done with 4 inks: Cyan, Magenta, Yellow & Black. The various dot combination and screens of these inks produce the full spectrum of color.

Your rack cards and brochures are printed in full color on both sides and trimmed and/or folded to the tourism industry standard 4" x 9" unless other sizes are specifically required.

Coatings

At no additional cost, all rack cards and folded brochures will include gloss aqueous coating or gloss varnish to further enhance their effectiveness.

Terms and Conditions

Prices are based on customer supplied electronic files in the industry standard formats. Additional costs may apply for files supplied in non-standard programs such as Publisher or Word. Please inquire prior to supplying files. Customer requested alterations are additional.

Allow approximately 7-14 working days from approval.

Your delivery date will be issued when proof is approved.

Payment

All payments are to be made to Rack Printing Services and we ask that the order be paid in full prior to printing.

We gladly accept MasterCard and Visa.

Guarantee

If we ever make a mistake, your order will be fixed, reprinted and shipped at our expense.
